Informed Consent Compliance

for Germline Genetic Testing

Date ____ / ____ / ____

Name of Practice _____

Practice Phone Number _____

Practice Address _____

City, State, Zip _____

Account Number(s) _____ Performing Lab _____

I, _____ (physician name), acknowledge that:

- It is my responsibility, prior to ordering any genetic test, to obtain a signed, written consent form from the patient (or their authorized representative) as required by applicable state law and/or regulations; and
- I will maintain all written consent forms as part of the patient file and make them available to Athena Diagnostics upon reasonable request.

This attestation remains in effect until an updated form is submitted.

Signature of medical practitioner:

OR: Signature of medical practitioner authorized to act on behalf of the physician practice group:

NPI _____

If signing for all physicians in a practice:

This confirms that I am authorized to act on behalf of the members of the physician practice group named above. In that capacity, I will assure that all physicians in the practice who order genetic testing for patients receive and review a copy of this document, and understand and comply with the informed consent requirements described above.

Background

Some state laws require that individuals (or their authorized representative) provide written informed consent to the physician ordering germline genetic testing and/or releasing test results.

The individual (or authorized person) must sign and date a consent form that includes:

- Statement of test purpose and description
- Statement that prior to testing, the physician ordering the test discussed with the individual the reliability of positive/negative test results and the level of certainty that a positive result for the disease or condition serves as a predictor of such disease
- Statement that the physician informed the individual about availability and importance of further testing, physician consultation and genetic counseling, and provided written information identifying a genetic counselor or medical geneticist
- General description of each disease or condition for which a test is ordered
- The name of the person or persons to whom the test results may be disclosed
